WHAT SETS US APART

- ✓ **Customer-first approach**
- ✓ **End-to-end managed solutions**
- ✓ **24/7 help, support and availability**
- ✓ **Firewalled and fortified digital regime**
- ✓ **Robust uptime and performance guarantees**
- ✓ **Free auto backup**
- ✓ **Affordable flexible pricing plans**

WHAT WE OFFER

We offer a full spectrum of hosting services to meet your diverse business needs.

✔ Shared Hosting

✔ VPS Hosting

✔ Dedicated Servers

✔ Cloud Hosting

✔ Managed Hosting

✔ Reseller Hosting

✔ Windows & Linux Hosting

SHARED HOSTING

Shared Hosting is a type of web hosting service where multiple websites are hosted on a single physical server, and all share the server's resources such as CPU, RAM, disk space, and bandwidth.

www.hostguardians.com

Perfect for Startups, Personal websites, Blogsites

Easy setup with user-friendly control panel

Free SSL certificate

Unlimited bandwidth

Full support for PHP, MySQL, ASP.NET, or MSSQL based on your OS preference.

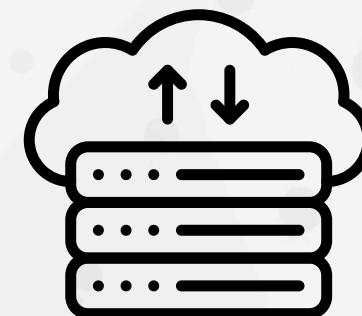

24/7 help and assistance support

VPS HOSTING

VPS (Virtual Private Server) Hosting is a powerful web hosting solution that offers the perfect balance between shared hosting and dedicated hosting.

- Perfect for Developers, growing websites, and custom apps
- Dedicated RAM, CPU, and SSD storage
- Root access for full control
- Isolated environments for better performance
- Easy scalability
- Powered by next-gen virtualization and protected by advanced firewalls

www.hostguardians.com

DEDICATED SERVER

A Dedicated Server is a physical server exclusively allocated to a single user or organization.

- Perfect for Enterprise applications, high-traffic websites, databases
- Fully customizable server configurations
- Advanced server monitoring tools
- RAID storage support
- High-speed networking and multiple IPs
- 99.99% uptime for mission-critical Apps

INFRASTRUCTURE AND SECURITY

Our hosting infrastructure is designed for performance, reliability, and scalability. Powered by enterprise-grade hardware, high-speed SSD storage, and redundant power and network systems, we ensure your websites and applications run smoothly 24/7.

- Platform-agnostic infrastructure
- Complete OS flexibility and hardened security
- Tier-4 Data Centers with redundant power and cooling

- 24/7 CCTV and biometric access
- DDoS Protection & Intrusion Prevention
- OS-level firewall configuration
- Data Encryption at both transit and rest

FLEXIBLE PLANS

We offer a wide range of hosting plans designed to grow with your business. Whether you're launching a small website, running a high-traffic application, or managing mission-critical infrastructure, our flexible server plans give you the performance, scalability, and control you need.

- Experience hosting made simple with prices that flex to fit your needs.
- Our plans are affordable, transparent, and built to grow with you.
- Whether you're starting small or scaling fast, enjoy top-tier security, performance, and support — without overspending.
- Smart choices, fair rates, and complete control — all in one reliable package.
